### Negro Killed in a Saloon Brawl.

George Thomas, colored, was shot and wounded Saturday night by Forrest Lawrence, a white man, from the effects of which he died several hours later. The shooting occurred about 11:30 o'clock in the saloon of Mike Woods on Main street, and is said to have been the result of a previous difficulty.

The saloon was crowded and a number of men in the place were eye-witnesses to the shooting. Lawrence was placed under arrest by Patrolman Fred Link and lodged in jail.

Stories as to the cause of the shooting are conflicting, it being said that the negro had threatened the life of Lawrence and that the shooting followed a number of remarks that had been made by Thomas to a white woman.

According to the most reliable information Lawrence entered the place and going back to the pool room in the rear of the saloon engaged in an argument with Thomas, who it is said appealed to the bartender, A. R. McKenney, for protection.

At this time the men were standing in the doorway between the saloon and pool room and Lawrence was making an effort to get at the negro. McKenney, it is said, was between them when Lawrence suddenly drew his revolver, pushed the former to one side and fired two shots. A third cartridge in the revolver failed to explode when McKenney wrenched the weapon from his hand.

Thomas fell to the floor, one of the bullets taking effect, the other missing its mark. The bullet from the 38-calibre Iver Johnson revolver entered the right side between the sixth and seventh ribs, passing through the right lung, inflicting a mortal wound.

The second shot fired by Lawrence was while the negro was on the floor and it took effect in his body about four inches to the left of the first wound.

Dr. J. T. Brown and Dr. William Kenney were summoned to attend the wounded man, who aside from suffering from the severe shock bled internally. Restoratives were administered and he was removed to the home of his mother on Williams street where he died about two hours later.

Thomas was employed at the butcher shop of Albert Anton and was considered an expert butcher. Lawrence, who was formerly employed as a telephone lineman, had more recently been doing farm labor.

Thomas, it is also said, had threatened the life of Lawrence because of the fact that he had been accused by the white man of killing his chickens and only a few days ago the latter had a warrant out for the negro and he was placed under a peace bond.

### EXAMINING TRIAL THURSDAY.

Lawrence was arraigned in the county court yesterday afternoon, before Judge Denis Dundon and entering a plea of not guilty his examining trial was set for Thursday morning at ten o'clock.

### CORONER'S INVESTIGATION.

Coroner Rudolph Davis yesterday conducted an investigation before a jury at which a number of witnesses were examined, resulting in a verdict being returned in accordance with the testimony given.

A. R. McKenney, bartender at Woods' saloon said that he saw the shooting and was standing between the men before Lawrence fired. He was pushed out of the way when he fired. He said Thomas told him that Lawrence had been making trouble for him and asked what was the best thing to do. He testified that he had told the negro to leave the saloon by the rear door and a second later Lawrence fired the fatal shots. He said Lawrence came in the saloon after Thomas had been there for some time. The men did not talk to each other and Thomas said that Lawrence had it in for him.

Kirby Woods said that he did not see the first shot fired but saw Lawrence standing over the prostrate negro with his revolver in his hand and saw him fire the second shot. Was engaged in counting at one of the pool tables when the first shot was fired. He went to get an officer after he saw the negro was wounded. Had not noticed either of the men in the saloon. Saw Mike Woods take a pistol from the coat of Thomas.

Mike Woods, proprietor of the saloon, said he was tending bar when the shooting occurred and did not see any of the trouble. He was attracted by the two shots and went to the rear room finding Thomas on the floor. Said he took a pistol from a holster that was concealed under his left arm.

Walter Gray said he saw Lawrence fire the second shot while Thomas was on the floor but did not see any difficulty before the shooting.

Horace Steele, a negro boy, testified that he went in the saloon after the shooting but was not in there at the time.

Sam Biddle, colored, said he saw both shots fired. At the first Thomas fell to the floor and Lawrence holding his revolver in both hands stood over him and fired the second shot.

At the conclusion of the evidence the jury retired returning a verdict as follows:

"We, the jury, find that George Thomas came to his death by a gunshot wound inflicted by the hands of Forrest Lawrence.

### Importation of Song Birds

Some 600 English song birds are to be imported into this country. Since the consignment will include nightingales, skylarks and other birds whose praises have long been chanted by British bards, there is no doubt that the feathered immigrants will be cordially welcomed by that portion of the public which admires British poetry. But unless the treatment they are accorded by the general population is a considerable improvement over that given our own native birds, the aliens are in for a stirring time when they are finally turned loose and told to shift for themselves. It is not at all likely that they have the resourcefulness and the capacity to cling tenaciously to life which that other importation, the English sparrow, possesses in such a marked degree. Few birds have, for that matter. But unless they develop an unexpected resiliency of character their life in this country is likely to be a short, and not even a merry one.

The American cat lacks appreciation of poetry of any kind. He is as willing to stalk an English nightingale as an American robin. Nor is the American youth who comes into the possession of a gun at an early age addicted to reading and admiring the British poets. From both these enemies, as well as from many others, the English birds are likely to receive a welcome they will not enjoy.

If our record for the treatment of our own birds were clearer, the outlook for the nightingales and skylarks would be much brighter. As it is, their fate seems destined to be much worse than that of that other "noble six hundred" who rode into the jaws of death at Balaklava.

### American Horses.

On the first of January there were in this country, according to the official estimate nearly 23,000,000 horses, a greater number than ever before, except in the years 1909 and 1910.

While these figures show that the coming into use of motor vehicles has thus far had very little effect upon the quantity of American horses, there are the best of reasons to believe that, from some cause or a variety of causes the quality of our horses has suffered. Horses are more numerous than they were a year ago, the increase amounting to approximately 53,000, but good horses are growing scarcer. This is shown in the difficulty that army officers experience in securing mounts for the cavalry arm of the service. Germany, which has only 3,200,000 horses all told, has much less difficulty in getting mounts for her large force of cavalry than we have in securing enough horses for a very much smaller force.

This may be due in part to the fact that our Government will not pay more than \$150 for a three year old horse, and American farmers find no profit in raising horses suitable for cavalry purposes at this price. But there must also be other causes operating to bring about a decrease in the quality of our horses. Even when the limit of price is placed by individuals at a very much higher figure the good horse is hard to find.

There was a time when we boasted with good reason of the excellence of our horses. They led the world in many respects. With greater knowledge of scientific breeding and a more widespread disposition to employ that knowledge, American horses should have improved in quality. That they have not should be a matter of regret, for the time has not come, and we hope never will come, when man's oldest and best friend among the dumb animals, excepting only the dog, has no place in a world of men.

### Significant.

The Danville Messenger has the following: "Kentucky has no Beckham county, but Oklahoma has, named in honor of our Ex-Governor, and Beckham county has the distinction of being the largest broom corn growing county in the United States. Significant, for Beckham will sweep Kentucky clean next August."

### Suit to Prevent Phone Combine.

Suit was filed in the Circuit Court at Lexington Friday by Attorney Edge, representing petitioners, against the Fayette Home Telephone Co., the Cumberland Telephone and Telegraph Co., and other subsidiary companies of the Bell Co., seeking to prevent consummation of the recent merger of these companies. The petition alleges that defendants are seeking to monopolize the telephone business and stifle competition in that territory.

### Bucket Men Get Heavy Fines

Eight men caught in the government's anti-bucket shop crusade in 1910, pleading guilty of nolle contendere in the District Supreme Court Friday and paid fines aggregating \$50,000.

Louis Cella, of St. Louis; Angela Cella and Samuel W. Adler, of New York, pleaded guilty and were fined \$10,000 each. Oscar J. Rappel, of Jersey City, pleaded guilty and was fined \$5,000. William F. Fox, of Baltimore, and Charles K. Ailey, of Washington, pleaded nolle contendere and were fined \$2,500 each.

Cases against Edward Altamus and Robert Hall, Jersey City; Henry R. Duryee, of Washington; Henry C. Stumpf, of Philadelphia; E. M. Browning, of Baltimore, and Samuel Raymond, Jersey City, were dismissed.

The defendants had appealed in vain to the Supreme Court of the United States. This action ends all bucketshop cases pending except that against Price & Co., which will be tried later this month.

### Wonderful Cures Reported in Germany.

The use of simple herbs as remedies instead of the more concentrated and usually more dangerous inorganic substances, has been revived very widely of late. In Germany a new school of physicians has arisen which throws out almost a whole of the pharmacopeia and relies on an adaptation of the method of wild animals in curing themselves. . . . N. Y. World.

It was Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute of Buffalo, N. Y., who first advocated the extended use of some of our native roots, such as: Golden seal and Oregon grape root, mandarin and queen's root, black cherry bark. These are the chief ingredients in Doctor Pierce's Golden Medical Discovery, which has been so well and favorably known for nearly half a century. A harmless cleanser and stomach tonic that nature has provided.

D. MATTHEWSON, ESQ.

J. DONALD MATTHEWSON of Ossining, N. Y. says: "I suffered for over five years with what the doctors told me was a dilated condition of the stomach, associated with a catarrhal condition of some, and nervous heart. I had tried enough nux, bisulph, gentian, rhubarb, etc., to float a ship and naturally thought there was no cure for me, but after reading what eminent doctors said of the curative qualities of the ingredients of 'Golden Medical Discovery' I gave it a fair trial. Took the 'Discovery' and also the 'Pleasant Pellets' and can truthfully say I am feeling better now than I have in years. I cheerfully give permission to print this testimonial, and if any 'doubting Thomas' writes me I will 'put him wise' to the best all-around medicine in the country to-day."

## ALWAYS SUCH CHUMS

By NEWTON BUNGEY.

Denis Hewitt was lounging un-  
gracefully but comfortably in a deck  
chair under the drooping branches of  
a blossom-laden chestnut tree when  
Mary Lidiard crossed the lawn, swing-  
ing a putter in her right hand.

Through his half-closed eyes Hewitt  
gazed at her critically, and he could  
not help admitting that she made the  
fairest of pictures. The breeze caught  
her curls, and with the sunlight turn-  
ed them into a shimmering sea of  
gold. A simple, well-cut gown of some  
soft, white material showed the grace  
of her figure as she walked. Her eyes  
shone with an unmistakable light as  
their gaze fell on Hewitt.

"Tell me again that you love me,  
Denis," she whispered.

"I love you, dear," he answered.  
"I shall always be hearing you say  
that," she said in low tones later as  
she turned to go into the house to  
pack for a few days' visit at a  
friend's house. "You'll write to me  
often, won't you, Denis?"

Hewitt winced as though he had  
been stabbed. Several times he had  
thought that while she was away he  
would write and tell her the truth—  
that he did not love her. But he was  
too much of a coward to tell her to  
her face and see those deep blue  
eyes grow heavy with misery.

Somehow it seemed quite a natural  
thing for a man to love a woman and  
she not to love him, but for a woman  
to love a man who did not care in  
the same way for her—it seemed  
nothing short of brutal.

At length in one of her letters  
Mary wrote the following paragraph:

"I can't help thinking, Denis, that  
your letters seem as though they are  
written with an effort, and it makes  
me fear that what I have thought be-  
fore is really true. It seems dread-  
ful to doubt you, dear, but it would  
be more dreadful to let matters reach  
an irrevocable stage and then to  
doubt.

"We have always been chums,  
Denis, and now we are promised for  
something deeper than friendship.  
Can you say from the bottom of your  
heart that this is what you desire?"

"Perhaps I am wrong in doubting  
you; but if I am not, oh, please do not  
hesitate to say so. Don't think you  
will be doing the right and honorable  
thing by masking your real feelings."  
How had she guessed? He had tried  
so hard to be all he was supposed to  
be.

He wanted her, and yet there was  
something missing, and she had recog-  
nized it.

He felt so ashamed of himself, so  
gnominous. He would have given the  
world to have been able to answer  
Mary's letter as a true lover would  
have done, but instead he wrote:

"You were right to doubt me, Mary.  
There is no woman on earth I care  
for like you, but it is not the love a  
man should feel for his future wife.  
It is cowardly to fly to excuses, but I  
shall always feel that our parents  
were responsible—they rushed us in-  
to the engagement.

"What will you think of me, Mary?  
We have always been such chums,  
and now I am refusing the best gift  
that the world could give me. It  
makes me feel so mean and con-  
temptible, dear; but, as you say, it will  
be better to sever while we have the  
chance.

"I don't suppose you will see me  
again for a long time. I shall go  
away somewhere—I don't care where  
—but I feel that I want to hide."

He walked down to the village post-  
office and posted the letter himself.  
Then he turned away and walked  
slowly down a lane, his head bent in  
thought, trying to picture the future  
without Mary.

He slept badly that night for think-  
ing of Mary. He began to feel that,  
though they were not to be husband  
and wife, he did not want to lose her.

Next morning he thought of her  
reading the letter, and he felt he  
would have given anything had he  
not written it or been able to regain  
possession of it ere it reached her  
hands.

His thoughts were interrupted by  
the arrival of a servant with a tele-  
gram. Tearing it open, a groan broke  
from his lips as he read:

"Come at once. Mary ill.  
"LIDIARD."

And in that moment Denis Hewitt  
knew he loved Mary, and hastened to  
her bedside.

He seemed to wait an eternity out-  
side the door of the room. He did not  
see the nurse who watched him curi-  
ously, and he scarcely saw Mr. and  
Mrs. Lidiard as they came out of the  
room.

Then he entered, his gaze riveted  
on the thin, white face framed in a  
mass of golden hair.

"Mary," he said huskily; "oh,  
Mary!"

Then he stumbled forward and  
knelt at the bedside, holding her frail  
hand and gazing beseechingly into her  
eyes.

"I'm glad you've come, Denis," she  
said.

"I wanted to see you so much."  
Then that half-wistful, half-puzzled  
expression came into her eyes as she  
gazed at him, and he winced.

Still holding her hand, he rose to  
his feet, and as he did so his gaze  
fell on the table alongside the bed.  
On it lay some letters, unopened, and  
one of them was his.

His eyes suddenly lit up with joy,  
and he turned to Mary with such a  
transfigured face that she watched  
with wonder.

"My Mary!" he exclaimed passion-  
ately, seating himself beside her and  
putting his arms around her shoul-  
ders. "My own dear love!"

### Negro Thieves Taken by Police.

Raymond Johnson and John Williams, two negroes, were arrested Sunday afternoon by Patrolman Fred Link on a charge of having broken into the store of Moses Joseph at the corner of Lylesville and Eighth streets Saturday night.

The negroes, it is alleged, entered the store some time during Saturday night, gaining an entrance after they had broken the glass from one of the front windows, and it is said carried away about \$50 worth of meat, flour and clothing. The discovery of the robbery was made by Joseph who went to the store Sunday morning after some fresh meat and the matter was at once reported to Patrolman Link, who instituted a search for the robbers.

It was ascertained by the officers after a thorough investigation that a number of negroes in the negro suburb had been well supplied with fish and by a very clever piece of work rounded up the two negroes who it is believed committed the robbery. Everything taken from the store was found in a coal house near the home of one of the negroes under arrest and practically all of the goods were recovered. The negroes were arraigned in police court yesterday morning and before Judge January entered a plea of not guilty. Their trial was set for Wednesday morning at ten o'clock.

### MATRIMONIAL.

#### BUCHANAN-MERRICK.

The marriage of Mr. Wm. H. Merrick and Miss Margaret Buchanan took place Saturday afternoon at two o'clock at the home of Mr. and Mrs. Chas. E. Butler, Jr., in Carlisle, Dr. W. F. Vaughn, pastor of the M. E. church, officiating.

Mr. Merrick is an employee of the Louisville and Nashville railroad, and a very promising young man, while his bride is a very attractive and accomplished young lady, the daughter of Mrs. Sarah Buchanan, and for some time past was stenographer in the law office of Mr. C. A. Ansparger in this city.

Those witnessing the ceremony were Mr. and Mrs. Butler and Dr. T. E. Hutchings, of Paris. The happy couple went to Carlisle at noon Saturday going immediately to the Butler home. They left at 4:59 p. m. for an extended bridal tour through the south and upon returning will visit the home of the bridegroom's parents at Mt. Vernon, Ky. They will reside in this city.

Marriage licenses were issued Saturday by County Clerk Paton to Mr. George Frederick and Mrs. Laura Snelling; Mr. Ollie Treddway and Miss Elizabeth Dock.

Mrs. Grover Cleveland and Thomas J. Preston, Jr., were married yesterday morning by President Hibben, of Princeton University, at Prospect, the executive residence of the University at Princeton, N. J. No preliminary announcement had been made of the marriage and the utmost simplicity was observed in the ceremony.

### DEATHS.

#### MORRIS.

Daniel T. Morris, 78, died Wednesday night at the home of his son, James R. Morris, near Hopkinsville. He was taken to that city ten days ago from his farm in Nicholas county to undergo an operation for a kidney affliction, but it could not be performed owing to his weakened condition. Mr. Morris was a native of Bourbon county. He was a gallant Confederate soldier and a member of Gen. Morgan's command. It was his last request that he should be buried in his gray uniform. His body was taken to Carlisle for burial.

Mr. Morris was a brother of the late Mr. W. A. Morris, of Paris, and Mr. John G. Morris, of Flemingsburg, an uncle of Messrs. Robert E. Morris and Thomas G. Morris, of Paris.

#### VAN METER.

Mrs. Alice Van Meter, aged about seventy years, died at her home in Danville Thursday after an illness of seven years. She was the wife of John M. Van Meter, who with three daughters survives.

Mrs. Van Meter had been in a very critical condition for several weeks and it was expected her death would occur at any time.

Her three daughters are Misses Annie and Sue Van Meter, of Danville and Mrs. John Woodford, of this county. The latter was at her bedside when the end came, having gone to Danville to be with her parents during the illness of her mother.

Mrs. Van Meter was a sister of Hon. John W. Yerkes and Prof. W. L. Yerkes, the latter of this city.

The funeral services were held at her late residence Saturday afternoon and the remains were taken to Lexington over the Q. & C. for interment in the Lexington cemetery.

### Normal Winter Temperature.

Normal winter temperatures in practically all parts of the country east of the Rocky Mountains and temperatures slightly above normal on the Pacific Slope are indicated for the coming week, according to the weekly Weather Bureau bulletin issued at Washington.

"The precipitation during the week," says the bulletin, "will be generally below normal, except in the Pacific States, where rains will be frequent. The next disturbance of importance to cross the country will appear in the far West about Wednesday, cross the Middle West Thursday or Friday and the Eastern States at the end of the week. This disturbance will be preceded by rising temperature and be attended by general snow in Northern and rains in Southern States. It will be followed by decidedly colder weather, which will make its appearance in the Northwest about Thursday."

### Hotel Promoters Meeting With Success

Meeting with the most encouraging results Messrs. Leer Stout and Logan Howard, who last week started the movement looking to the incorporation of a company to erect a new hotel in this city, are busily engaged in their labors and to this date a considerable sum has been subscribed.

The movement was started after the promoters had secured an option on the property of Mr. John Sauer at the corner of Seventh and Main streets and the adjoining property of Mrs. Thomas Roche. A thirty day option has been retained on the property and which will expire March 5.

Many of the leading business men of this city have become interested in the endeavor to organize the stock company and capitalized at \$100,000, while others who are financially able to subscribe for a large block of stock, seem to be waiting only for the purpose of seeing how the venture will take with the majority of the local capitalists.

There should be nothing to hinder the progress of the men who have undertaken to organize the company, and who are spending their most valuable time in their efforts to interest the citizens in the enterprise. Most of our citizens of means no doubt will not hesitate a moment were it not for the fact the same spirit that has retarded the progress of many an enterprise, still exists.

The gentlemen who have retained the option on the property to be used as a site for the hotel, state that there is but a comparatively small amount of time in which to act and those who have been approached on the subject who have not fully made up their minds should without further hesitancy, secure a portion of the stock. That the enterprise would prove a paying proposition is without question there should be no drawback from this source.

The News is interested in the success of the venture and heartily endorses all of the plans. There should be nothing whatever to hinder the progress of the promoters and with prompt responses from those who are now considering taking stock would expedite matters and give further time to lay the plans before other prospective subscribers if they would make their intentions known at once.

### May Not Get Natural Gas After All.

Paris may not get natural gas after all, is the discouraging rumor that is afloat, and the effort of the Central Kentucky Natural Gas Co. to get a franchise to enter the city with its pipe lines was only a bluff.

There is nothing now to indicate that there will be another effort on the part of the officials of the gas company to get the franchise through the City Council at its meeting Thursday night. No disposition with this in view has been apparent since the rejection of the franchise on the ground that the maximum rate was not the same as that of other cities now getting the service, has been made and this leads to a belief that there will be nothing more heard of it.

Since the franchise was presented to the council it has come to light that an effort had been made to purchase a franchise held by Messrs. George Alexander, H. Clay Howard and W. B. Lloyd, the latter of Mt. Sterling, and which has been in effect about six years, but since there have been no further negotiations. There is a strong opinion that the officials have abandoned the idea of extending their lines to this city.

Many opinions as to the motive of the company in securing a franchise are advanced, one in particular being that at the time it hoped to get control of the lighting plants of this city, and failure in this effort precluded their endeavor to secure the franchise. This, however, is a matter of conjecture, as nothing can be produced to verify the rumor that is now in circulation along this line. It is the opinion of many that no further effort will be made to have the council pass upon the franchise and this being a fact the matter will rest for the present at least, perhaps forever.

### Governor Offers Reward

Governor McCreary Saturday offered \$100 reward for the arrest of Alex Alsop, a negro, wanted in Scott county for killing Charles Parrish, also a negro. The killing took place February 25.

### Suit to Recover Shortage.

State depositories in which former Deputy State Auditor C. E. Booe checked probably will be sued by the Commonwealth to recover the balance of the \$30,000 Booe was charged with having embezzled. A check for \$17,500, the amount collected from the surety company which was on Booe's bond, has been received. Settlement was made on this basis because of the impossibility of tracing all the small sums involved in the total peculation, witnesses being scattered through nearly all the counties of the State, and some of them having since died. By changing the direction of their efforts in these contemplated suits against the depositories it is believed the State officials will have simplified the proceedings.

### Paris Merchants Interested In Automobile Delivery.

Horse delivery is at best unsatisfactory. It is neither quick nor far reaching; and inevitably the animal suffers because no merchant can always adapt his delivery needs to the reasonable capacity of his horses. On the other hand, motor delivery is swift and can reach trade miles beyond horse service. It is tireless. Overload it, you abuse not flesh but steel. There's a human difference.

One delivery car you can absolutely trust. It is the Studebaker "20," which after a full test in hundreds of cities, has fulfilled every claim Studebaker made for it.

This is the twentieth century, and the delivery car of today, the future, is the swift, tireless, reliable Studebaker "20."

Will you not confer with our representatives on the possibilities of this car for your business?

## Foot Crushed by Coupler.

While attempting to open a coupler on a freight car Friday morning at 6:30 o'clock at Butler, G. T. Hamilton, a Louisville and Nashville brakeman, had his right foot so badly mashed that amputation may be necessary. Hamilton was making a coupling of two freight cars and when the patent coupler refused to work he attempted to open it by kicking it with his foot. In so doing his foot caught between the two cars. The injured man was taken to his home in Covington. He formerly resided in Paris.

## Paris Loses to Lexington.

In a fiercely fought and hotly contested game at Lexington Friday night the basketball team of the Lexington High School defeated the Paris High School team by a score of 23 to 12. The game was one of the roughest of the season. The Paris boys were on their mettle throughout and many times stopped the Lexington boys from scoring when a burst of speed gave the indication that the game would be a walk-over. The local team was unable to overcome the strong lead taken by their opponents.

## Almost Destroy Machinery.

A valuable piece of machinery belonging to the Higgins Wire Screen Co., of Newport, which has been in storage at the old lead mine in East Paris since its abandonment, was almost destroyed several days ago when micrometers entering the building broke all of the brass fittings. The machine, which was valued at about \$4,000, was used in the development of the lead mine, but since it was abandoned it had been crated and left in one of the buildings. The brass fittings were very valuable and the owners of the machine will suffer a considerable loss.

## Freight Conductor Shoots Fireman.

Alleged disobedience of orders followed by a difficulty was the cause of Frank Keith a freight conductor on the Louisville and Nashville railroad shooting R. Allen, locomotive fireman.

The shooting took place Friday morning at an early hour in the South yards in this city. Allen was not dangerously hurt and continued on his run.

The trouble, it is said, came about when Allen backed an engine into a freight train in charge of Keith without a signal from him. This led to an argument and when Keith climbed to the cab of the engine the fireman wielded a shovel with such effect as to knock him off.

Allen then stepped to the window of the cab, and Keith, who was upon the ground, fired upon him, the bullet striking him above the left eye, inflicting a slight wound and glancing off. No arrests were made.

## Legs Crushed Off by Engine.

As the result of an accident which occurred in the South yards of the Louisville and Nashville railroad Saturday afternoon about two o'clock William A. Lennox, a locomotive fireman, lost both of his lower limbs when he was run down by a yard engine.

Lennox had been called to go out on a run and was at the round house getting his engine ready. He stepped from the cab onto one of the tracks and was struck by the locomotive that was drawing a dead engine.

The crew of the yard engine did not see Lennox as they approached him. The locomotive passed over his legs below the knees so badly mangle them that amputation was necessary.

A special train took the unfortunate man to Lexington where the operation was performed immediately. Both of his legs were removed below the knees. He rallied from the shock of the injury and anesthetic and his condition while still critical was somewhat improved yesterday.

Lennox is twenty-three years of age and unmarried. He is a brother of J. A. Lennox, an employee of the railroad company, and who accompanied the injured man to Lexington.

## Money Saving Shoe Sale

Our big shoe sale will be continued until Saturday, February 15. We have some rare bargains.

## Local Market Shows Improvement.

The local tobacco market showed some improvement Saturday over the previous sales of the week, when a total of 104,110 pounds were offered and sold at an average price of 11 1/2 cents per pound. The market was active and in marked contrast to the sales held Thursday.

The quality of tobacco now being received at the warehouse is very inferior to that of several weeks ago when the cream of the product of this county was placed on sale and most of the finer grades being disposed of.

At the sales Saturday the bidding was exceedingly active and the better grades of the week were in demand by the buyers. Following are a part of the averages of the individual sales of Saturday:

Arbery and Fookes sold their crop for an average of \$14.85.

Homer Hutchison sold a crop at an average of \$16.75.

C. Sheppard received an average of \$13.81 for his offering.

The crop of Hutchcraft and Franklin brought an average of \$14.

Clay and Gaunce's crop averaged \$15.11.

Collins and Cortis sold an entire crop of 15,800 pounds at an average of \$14.41.

To this date the sales of tobacco on the local market amounts to 3,269,310 pounds which brought \$431,287.91, being an average of \$13.19.

## FARM LOANS

This company accepts first mortgage loans on farms, when duly approved as security for money loaned.

We are, therefore, always glad to hear from those who own real property, and who require funds for building or other purposes, or who are contemplating the purchase of new farms; and we are, as a rule, prepared to advance such funds, if the property is of recognized value and the desired loan relatively reasonable.

It is always requisite that there shall be a wide margin between the market value of the property and the amount of the loan for which the property is offered as security.

We aim to be as liberal as possible in all cases, however; and those who seek loans of this character will do well to consult with us. Write to the following address giving full particulars.

## WASHINGTON LETTER

BY CLYDE TAVENNER  
Congressman-Elect.

Washington, Feb. 10.—Few persons realize the far reaching importance of the fact that the United States will soon have an income tax on its statutes.

First of all it means that millionaires will, for the first time since this nation has stood, bear a fair proportion of the burden of taxation.

It is estimated that one hundred million dollars will be raised annually by taxing incomes. This will mean that that amount of taxation is to be taken off the things that the people must have in order to live and placed on wealth.

Under the system of protection as played in this country, nearly every penny of the money necessary to run the government, maintain the army and navy, construct public buildings, etc., is raised by taxing the things the people eat, wear and use. The only thing that protection does not tax is wealth. A man with a fortune of ten million dollars has not been required to pay a single penny of tax to the government. This seems almost unbelievable but it is true. The man working on the section for one dollar and fifty cents per day, with a family of five children, is at the present time actually contributing more to run the national government than the millionaire bachelor, too proud to marry and raise a family.

The United States of America is practically the only one of the great nations where such a condition exists. Nearly every first class nation on earth levies either an income tax or an inheritance tax. We have neither.

Why have we never been able to place an income tax on the statute books is the question that naturally arises. Here is the answer: High protectionists have prevented the passage of an income tax law because they know that the more money the government collected from taxing incomes the less excuse there would be for a tariff tax. To take protection away from the tariff trusts is to interfere with their monopolies. And how could the tariff trusts gouge consumers without having monopolies of American markets.

## THE COTTON TARIFF ROBBERY.

The American people are paying annually about \$30,000,000 more for their cotton goods than they ought to pay, because of the iniquitous Payne-Aldrich tariff law. The 63rd Congress is preparing to interfere with this robbery. There will be a big downward revision on all kinds of cotton goods. The cotton schedule of the Payne-Aldrich law carries an average duty of about 53 per cent. This means that every article of cotton cloth and every piece of cotton yarn that comes through the custom house has 53 per cent added to its foreign price. And on cotton goods that does not come through the custom house, but is manufactured in this country, the 55 per cent is added just the same by the home manufacturer.

When the tariff on cotton goods is reduced one-third or one-half of the present rates, this article so much used by women and children, may be had at the price more nearly representing the actual value of the goods.

## Poles Not to be Removed.

In an opinion handed down Friday Judge Walter Evans in the Federal Court at Louisville refused to dissolve the injunction granted to the Western Union Telegraph company, four months ago, to prevent the removal of the telegraph company's poles and wires from the right of way of the railroad company. Contention proceedings to secure a right of way will be heard by a jury in the Federal Court March 12, at which time a valuation of the right of way now occupied by the telegraph company will be fixed.

## To Protect Boyle County Quail.

Effective methods are being employed in Boyle county to protect quail against both the hunters and the ravages of starvation. J. M. Bailey, game warden, employed jointly by the Boyle County Fish and Game Protective Association and the Kentucky Game and Fish Commission, has located 42 coveys of quail in the county. On one farm there are 500 birds.

Farmers who are members of the organization are assisting in guarding the birds, and during cold weather when it is impossible for them to secure food they are fed by Warden Bailey and his assistants. Mr. Bailey has jurisdiction over all adjoining counties, and is arranging to extend the co-operation plan into Mercer, Garrard, Lincoln, Washington and Casey counties.

## CAST LIGHT ON ADMINISTRATION

Wilson's New Jersey Laws Pleasing To Congress.

Acts Based On Stanley's Work On Steel Committee.

Kentucky Congressman Explains Three-Year Battle.

### RESTORING CONFIDENCE

Washington, Jan. 31.—(Special).—Members of Congress showed greater interest in Governor Woodrow Wilson's New Jersey anti-trust program, as announced in the morning newspapers today, than in any previous act or utterance of the President-elect. They feel that he has thrown a great light upon one phase of his administration, and take it for granted that he will advocate before Congress the same anti-trust laws, particularly because the substance of these laws originated with Representative A. O. Stanley, Senator R. M. La Follette and Louis D. Brandeis, respectively.

Mr. Stanley in a statement today showed what portions of his bills Governor Wilson has apparently applied to the New Jersey situation, and expressed his gratification thereat. This portion of the New Jersey program is especially gratifying to the Democrats of the House, as the authorization of the Stanley Steel Trust investigation, from which the bills grew, was one of the first acts of the Democratic majority that was elected in 1910.

In commenting on Governor Wilson's anti-trust remedies, Mr. Stanley said: "Governor Wilson's unqualified endorsement of the anti-trust legislation contained in the seven bills introduced in the New Jersey Senate affords me a profound gratification I cannot express. For nearly three years I have been demanding the amendments of existing laws, forbidding the very abuses which this legislation is intended to correct. During the period of Republican ascendancy my bills and resolutions were pigeonholed and I was denounced by the standpoint press as a dangerous visionary and a demagogue."

### Democrats Organized Probe.

"One of the first acts of the Democratic Congress, however, was to pass these resolutions and organize a committee, of which I was made chairman, for the purpose of investigating the abuses of which I had complained. This committee on August 2, 1912, introduced legislation forbidding corporations engaged in interstate commerce from:

- A—Undermining in local markets.
- B—Fixing prices to the consumer.
- C—Issuing watered stock.
- D—Forming holding companies.
- E—Entering into agreements for the control of the price of any commodity.
- F—Owning stock in other corporations.

G—Agreeing to limit production.

H—Attempting to prevent competition in the transportation, manufacture or sale of any article.

"After sixteen months of laborious investigation the committee which investigated the affairs of the Steel Corporation not only reported the status of the concern, but proposed new legislation in the form of bills which I had the honor to introduce in the House."

"Yesterday there was introduced in the Senate of New Jersey, with the express approval of the next President of the United States, bills prohibiting in that State the very practices which the legislation to which I have referred will prohibit in the United States."

"At this time I have had no opportunity to investigate the text of these bills, but the purpose of the Federal legislation recommended by the committee or by myself and the State legislation endorsed by Governor Wilson are identical, one being so drawn as to prohibit these practices within the State and the other within the Federal Union. In the preparation of these measures the committee and its chairman are indebted for invaluable assistance furnished without charge by some of the greatest jurists in the nation, the most conspicuous among them being Louis D. Brandeis, of Boston, and Robert R. Reed, of New York."

**Wilson Insures Confidence.**  
"Governor Wilson's brave and cheering declaration that these acts are designed to put an end to trusts and monopoly under the laws of New Jersey, and I confidently predict they will accomplish that much-desired result, will inspire the courage and renew the hope of every progressive Democrat in the country."

"The law can be enforced as easily against the mightiest as against the meanest of malefactors if those who are entrusted with its enactment and execution are not hampered by obligations to or deterred by the dread of the pelf or power of the violators of the law."

"The trouble hitherto has been that the men who are entrusted with the enforcement of the law dreaded the power and the money of the men who are violating the law. The Congress and the Senate are being literally winnowed of the legislative agents of great corporations and of men who hope to obtain fat retainers after retiring from public life by so demeaning themselves as not to incur the ill will of great railroad systems and manufacturing concerns."

"Bryan struck the keynote when he declared that the American people will no longer tolerate public men who are under any obligations, financial, official or professional, to the privileged violators of the law and plunderers of the people."

"With fearless and incorruptible men to write the laws, and with Woodrow Wilson to enact them, we are in the dawn of a new and brighter industrial era."

In a rival political camp from Mr. Stanley, but with a purpose as patriotic and disinterested, Senator La Follette has been hammering away along the same line. Both he and Mr. Stanley were assisted in great measure by Mr. Brandeis, and if rumor should be verified and Mr. Brandeis become Attorney General under Wilson, the Kentucky and the Wisconsin man could cheerfully support and find comfort in that portion of the Administration.

### STOCK, CROP AND FARM NOTES

—The poultry show held at Richmond last week was a grand success in every particular.

—A. M. Casey, of Maysville, recently sold to A. P. Adair, of this county, the Duroc breeder, one show South-down ewe at \$40, one at \$25 and one at \$20 and a ram lamb for \$30.

—Never burn the cornstalks, if you desire to secure the most benefit from them, but utilize them in feeding stock, and making manure, or turn them under deeply at this season of the year.

—We are receiving a carload of Percheron mares every two weeks, from one to four years old. Phone or write us.

—Danville Messenger: "Sheriff B. G. Fox, the wide-awake horse and mule man, has been in several Central Kentucky towns lately buying mules. He reports strictly high class mules as rather scarce, but of the medium grade the supply is about equal to the demand. Prices are holding up fairly well."

—W. P. Givens, of near Danville, has just completed sowing ten acres of land in alfalfa. He has been growing alfalfa with remarkable success for a number of years. On five acres of land the past season four crops were harvested, each crop being equal to the average crop of timothy or clover taken from a similar area of ground. The total harvest was sold at an average of \$162 per acre.

—Plans soon will be put on foot for getting up a live stock exhibit in Kentucky for the Panama-Pacific exposition at San Francisco in 1915. Commissioner of Agriculture J. W. Newman; W. H. Giltner, of Eminence, president of the Hereford Association; E. A. Ferra, of Nicholasville, president of the Kentucky Dairy Cattle Association, and Prof. Joseph H. Kastle, director of the agricultural experiment station, have been appointed a committee by the exposition management to take charge of the exhibit.

### Waiting for Vouchers.

State Pension Agent Capt. W. J. Stone explained Friday that the requirement of the law that the entire pension roll for the quarter be sent to the Auditor for him to issue warrants on the Treasury is causing the delay in sending out checks for Confederate pensions. He is waiting to get about fifty vouchers back from the pensioners before he can act.

### Shepherd Eludes Officers

Joe Shepherd, alias "Big Boy," wanted in Winchester for the murder of Deputy Sheriff George M. Hart, was arrested at Wilson's construction camp Friday night, but by a ruse and his powerful strength succeeded in breaking away from the officials and made good his escape.

### Give the Hog a Scratching Post.

If a hog knew how to tell his wants, he would demand a scratching post. Such posts in the opinion of many hog growers, are not only a source of great comfort to hogs—the picture of a hog or a pig scratching himself and softly grunting his content is worth a couple of hours of any man's time in fixing up a pig post—but the post may moreover be made useful in ridding the animals of lice or scaly skin. A successful Maryland hog grower adopts this plan. Firmly plant a hickory or oak post 4 inches in diameter in the hog run. Coil a manila rope around the post as high as the hog stands and mangle it on securely. Then thoroughly saturate the rope with crude petroleum and it becomes an ideal scratching post for hogs and pigs. They will rub against it continually and oil is fatal to vermin. Kerosene can be used but it evaporates too readily.

### MILLERSBURG ITEMS.

Our town and community received quite a surprise Friday evening when the announcement cards of the marriage of Miss Mabel Louise Letton, of Frankfort, Ind., and Mr. Ora E. Hurst, of Millersburg, were received by the many friends here. Those most intimately associated with Mr. Hurst had no idea that such an event was in store for the future. Mr. Hurst is about twenty-eight years old and perhaps the most prominent young business man in Millersburg, secretary and general manager of the Hurst Home Insurance Co., which position he has held since last March when he succeeded his uncle, Mr. F. F. Hurst.

Mr. Hurst was one of the early students of the Millersburg Training School, which afterward became the M. M. I., a graduate of Kentucky University, a writer and an able attorney, having practiced his profession for three years at Owensboro, before coming to Millersburg. He has worked upon the staff of several newspapers, among which was the Lexington Herald, and was later located in Jackson.

He met his bride, Miss Letton, some few years ago while doing newspaper work at Falmouth, she then residing in that city with her parents, Mr. and Mrs. Bryce Letton, who have since died. Miss Letton is an accomplished young lady and her early life was spent in Paris. Since the death of her parents she has resided with her sister at Frankfort, Ind. Mr. and Mrs. Hurst will be at home to their friends in a few days.

The cadets of M. M. I. are rehearsing their patriotic play, "The Dawn of Liberty," which will be given at M. M. I. drill hall Saturday evening, February 22. It is one of the best pieces ever put on by Mrs. C. M. Best, and will be followed by a reception. Those attending the play and reception are asked to dress in colonial costumes.

The grocery stock of Mr. L. T. Vimont which was forced into involuntary bankruptcy some ten days ago was sold at public sale Friday morning and was bid in by Mr. M. P. Collier for Mr. W. M. Vimont, brother of Mr. L. T. Vimont for \$555. The stock and fixtures invoiced at \$1,321.

The Glee Club of Transylvania University, gave a concert Monday evening at the opera house under the auspices of the Ladies Aid Society of the Christian church. A large audience was in attendance.

Mr. Thomas McClintock purchased a number of mules in Bath county Thursday and Friday. Mr. Bert McClintock purchased a number of mules in Mason county on the same date.

Mrs. Alice Dailey, aged about forty-five, died at her home near Hooktown, Friday night of tuberculosis. Interment Sunday afternoon at the Millersburg cemetery.

The Mission Study Class of the Presbyterian church realized a neat sum of the sale of edibles Saturday. The money will go to the Foreign Mission work.

Mr. and Mrs. J. M. Mason entertained Saturday evening with an elaborate six o'clock dinner for Mr. and Mrs. Claude Berry, who were married Wednesday.

Miss Sadie Clark, who is teaching at

Escondida, was at home Friday and Saturday accompanied by Miss Elizabeth Litter.

Mr. G. S. Allen visited in Georgetown last week.

Mr. W. S. Judy, of Lexington, was in town Saturday.

Mr. A. T. Moffett received three cars of stock hogs from Wayne county Monday.

Mr. U. S. G. Pepper returned Sunday after a week's business trip in Oklahoma.

The annual Senior and Junior reception of the M. F. C. will be held Friday evening.

Miss Hazel Kerr, who is teaching at Pleasant Valley, was at home, from Friday to Monday.

Dr. B. M. Stive, of Paris and Rev. A. S. Venable, of Millersburg, exchanged pulpits Sunday.

Please bar in mind that we are selling on a thirty day system.

JUDY &amp; SON.

Miss Lena Cooper, of Paris, arrived Thursday as the guest of her cousin, Mrs. Minnie C. Hurst and family.

Miss Vee Patterson returned Saturday after a few days' visit to her sister, Mrs. Harlan Parrish, at Lexington.

Mr. and Mrs. T. D. Judy returned Thursday after a ten days visit to her daughter, Mrs. K. R. Vaught at Parkersburg, Ind.

Many of our people have taken advantage of the recent cold weather and have filled their ice houses with fairly good ice.

Mr. C. D. Tackett has accepted the management of the business of the Singer Sewing Machine Co., for Mason county and entered on his duties at the Maysville office Tuesday.

Mr. and Mrs. E. H. Kerr returned Saturday after a few days' visit to her mother, Mrs. Martha Baldwin, at Maysville, accompanied by their daughter, Miss Jesse Kerr.

### Whirled to Death On Belt.

James Casey, 41, a farmer living near Shelbyville, met a tragic death Saturday. In addition to his farming operations Mr. Casey conducted a combination and saw mill. This mill was located on his farm. Assisted by a young son he began to grind some corn and while so engaged he attempted to slip a belt. In doing this his clothing was caught by the belt and he was whirled to the top of the building, his head striking a roof rafter with terrific force. Before the revolution could be completed the lad managed to stop the engine, but it was too late to save his father, who had been killed instantly, a part of his skull being crushed in.

### Blue Grass Clubs Have Hard Road.

Many Blue Grass League clubs are struggling to get matters into shape before the beginning of the season and in many instances the outlook is extremely gloomy. The Paris team will start the season beyond a doubt, provided however there will be sufficient support accorded by the fans to tide the affairs over until the season is fairly launched, then, it is calculated, there will be plenty of money to sustain the club.

While there is a disposition among some of the clubs to drop out, there are always a few fans in each town grabbing at the remaining straw see a little ray of hope for a team. Richmond is one of the towns that is well in the run, but it is practically decided there will be a team. The fans held a very enthusiastic meeting and the question was thoroughly discussed, the result of which was that an effort would be made to retain their club. Contracts have been mailed to all the reserved players.

There is a probability that the Orphans will be compelled to see another parentage, for the report comes from Mt. Sterling that the fans there are "dead sore" on the game because their team made such a poor showing last year and the fans were compelled to dig deep in their "purses" to supply a deficit in the treasury, caused by the failure of the club to draw on the road. The patronage at home was good and the Mt. Sterling fans, like true sports, accorded a good support.

The Frankfort club is about the only one among the sextet that is saying nothing and sawing wood, making very rapid strides toward the forming of a good team, while Lexington finds it easy to get ready from the fact that there is sufficient wherewith to start the ball rolling.

Reports from the Rivermen are to the effect that Maysville will be there when the bell taps and already have selected their chief in the person of "Peggy" Moore, who managed the Ironton team of the Ohio State League last year. The fans are hopeful the new manager will carry the coveted rags to the river town this fall.

The endeavor to put two more clubs in the league with the addition of teams in Covington and Newport which would make an eight club league, is interesting local fans. A number of influential men in Covington have undertaken the task, and will make a visit to President Herrmann, of the Cincinnati club, before taking a hasty venture.

### Refused to Release Smith and Deaton.

At Winchester yesterday Judge J. M. Benton overruled a motion for a writ of habeas corpus offered by attorneys for Govan Smith and H. F. Deaton, two of the fifteen Breathitt county men indicted for conspiracy to kill Ed Callahan former sheriff and noted feed leader of Breathitt county. Both Smith and Deaton were admitted to bail at the trial, but were later remanded to jail by Judge Benton in order, as he said, that the investigations of perjury might be made without hindrance.

### Farmers Institute Will Begin Tomorrow.

The annual Farmers' Institute will open in this city tomorrow for a two days session, continuing through Thursday. The sessions of the institute will be held in the court house and some of the most prominent lecturers in the State will be present.

### Explorers Perish in Blinding Blizzard.

A dispatch from Onaru, New Zealand, yesterday, said: "Captain Robert F. Scott and his party were overwhelmed by a blizzard on their return journey from the South Pole. The entire party perished."

"They reached the South Pole on January 18, 1912."

"The news of the appalling disaster which befell Capt. Scott and his companions was brought to this port by a signaled message from the Terra Nova, the vessel which had carried the explorer and his expedition to the Antarctic, and which late last year went once again to the south, to bring him and his companions back."

"The total number of deaths involved in the calamity is not exactly known but it is believed that sixty-six scientists and sailors lost their lives."

"Captain Scott's party reached the exact point where Roald Amundsen planted the Norwegian flag at the South Pole."

"They found there the hut constructed and left behind by Amundsen's party."

"These facts were recorded in the documents found on the bodies of the dead explorers, when they were recovered."

### GENERAL NEWS.

Litigation over the \$2,000,000 bequest made by Mr. Mary Baker G. Eddy to the First Church of Christ, Scientist, of Boston, Friday, was ended when the heirs and trustees of the church entered an agreement in the courts of Massachusetts and New Hampshire. At the same time the Massachusetts Legislature passed an act enabling the church to accept the bequest.

Twenty persons were drowned, among them some of the most prominent in Nicaragua, when the auxiliary schooner Granada capsized at the mouth of the Colorado River in Nicaragua Thursday.

### Best Made.

Talbot Elected Vice Chairman.

The Racing Commission, with Messrs. Grainger, Young and Talbot present, met in Lexington Thursday and passed consideration of spring racing dates until March 10.

A petition requesting an increase of purses and stakes was presented by Fred Forsythe, of Mercer county, and a number of increases were ordered.

T. Hart Talbot, the new member of the commission, was sworn in and elected vice chairman.

Hops Laudeman, of Lexington, was re-elected supervisor of the pari-mutuels for this year.

### The Best Asset for Any Retail Business.

"To keep my customers believing in me and my methods, is a prime asset in my success," said a local merchant a few days ago.

He was referring to the effect of his Studebaker "20" delivery car upon his trade, and he was right. The handsome appearance and quick service of this car has marked him as a merchant strictly up to date. It has increased his business and incidentally lowered his delivery costs.

The Studebaker "20" is a twentieth century product for the twentieth century business.

### BOURBON GARAGE.

### STOCK, CROP AND FARM NOTES

—Caywood & McClintock bought Friday from H. H. Lowry one mule for \$175, and also purchased from Ossian Edwards one mule at \$162.50.

—Caywood & McClintock, of Paris, sold Friday to G. W. Jordan, of Hawkinsville, Ga., 11 head of horses at an average of \$200 per head, and four mules ranging in price from \$150 to \$225 per head.

—The shipment of mules from Garrard county continues heavy, several Georgia buyers having made purchases the last week. Shelby Jett, a Madison county farmer, received \$550 for a pair of six year old mules. W. B. Burton, of Lancaster, has bought 38 head of hybrids at an average price of \$215 a head, and six head of horses from Shelbyville dealers at from \$175 to \$200.

### Sky Limit Reached.

Housewives of Washington City, were much damaged Saturday when they discovered that spring lamb of the crop of 1913 was retailing at \$1 a pound. This would make a leg of lamb cost from \$6 to \$8 and the price is said to be the highest ever recorded at this time of the year. The "trimming" that generally accompany the succulent spring lamb, mint and green peas, retailed at 10 cents a bunch and 15 cents a quart respectively.

Prices of nearly all commodities are advancing and dealers regard the outlook for any decrease in the immediate future as not encouraging.

### Mercer Official Indicted

The grand jury at Harrodsburg adjourned Saturday after returning a large number of indictments, the most important of which were against two county officials, Jailer Board and Poorhouse Keeper Kirkland. These two officials were charged in the indictment with drunkenness and neglect of duty, and their removal was recommended.

### Luke McLuke Says

It doesn't matter how ornery a woman may be a man always hates to hear her swear.

The man who won't drink water at night is sure to holler for it in the morning.

Lots of men who can't repeat the ten commandments can remember the names of ten different brands of booze.

An ugly woman is the ugliest thing in the world.

What has become of the old fashioned girl who was a member of the Florida sedit?

Some folks are so hospitable that they get sore if you don't help yourself to the family toothbrush in the bathroom.

Clothes may not make the man but pads often makes the woman.

After a girl has been married five weeks she suddenly realizes that there are actually more than two people in the world, and the honeymoon is ended.

Even a woman with a shape like a street sprinkler knows that all the other men in town envy her husband.

The lily toils not, neither does it spin, but it hasn't anything like the modern Princess in the average home.

Some of the women are complaining that the cuts in the white goods advertisements are too realistic. Realistic? Why, who ever saw a drawing room in real life that was filled with girls garbed in whatcallems psing around in "Oh You Kid" attitudes.

The only "realistic" cuts used in underwear ads are those depicting the beauty of men's union suits. Us men have the kick coming.

Women like to organize Shakespeare Clubs because it gives them an opportunity to get together and talk scandal.
